

CHRIST'S COLLEGE

GRADUATE TRAVEL AND RESEARCH FUNDS

Graduate Student Trust Funds

The College can provide from these three funds limited grants for travel and other purposes. There are four deadlines for applications every year: **15th of November/February/May/August**

- **The Emily & Gordon Bottomley Travel Fund** provides support for graduate students towards the cost of travel to conferences or travel which is in some way *directly connected* with their academic work.
- **The Monica Kornberg Memorial Fund** was established in memory of the late Monica, Lady Kornberg (wife of a former Master of the College) to facilitate the research of graduate students. The Fund can provide modest grants *for any research purpose* for which sufficient funds are not available from other sources. No individual may receive more than one award from the Fund in any one academic year.
- **The Reuben Levy Travel Fund** assists graduate members of the College with the costs of travel which *need not be connected* with their academic work.

Applications must be made on the "*Application Form for Graduate Travel and Research Funds*" which is available in hard copy from the Tutorial Office in Y4 or a PDF copy can be emailed to you (contact tutorial@christs.cam.ac.uk).

Please note a supporting statement from your Supervisor will be required as part of your application. Further details are contained in the application form.

Graduate Tutors' Travel and Research Grants

Applications from graduate members of the College for modest assistance with travel and other expenses directly connected with research projects or academic work *may be made at any time* to one of the two Tutors for Graduate Students, Professor Gay or Dr Norman.

Christ's College Medical Elective Grants

The College may be able to contribute towards the cost of travel for Clinical Study on an approved medical elective course overseas. NB Students applying for a Medical Elective Grant are *not* eligible for additional funding for the same elective trip from any of the named funds listed above. Application for an award by email, to include details of your proposed medical elective trip and its costs, should be made to Professor J.H. Gillard, Director of Studies in Clinical Medicine. The maximum amount that may normally be awarded to an individual is £400.
